TOYOTA MANUFACTURING UK LTD

Production Apprenticeship

Level 2 Lean Manufacturing Operative

Burnaston, Derby

Toyota Manufacturing UK

Who are we?

Toyota Motor Manufacturing UK began operation in 1992 at Burnaston in Derbyshire. We are a vehicle manufacturing plant employing approximately 3,000 members and currently produce the Toyota Corolla – the first model to introduce Toyota's dual hybrid strategy.

Apprenticeships at Toyota provide an opportunity to learn within a culture of continuous improvement, teamwork and respect, whilst providing the opportunity for a long lasting and successful career. At the heart of Toyota is our belief that no process is perfect – there is always a better way. It is this tradition which has kept us setting standards in automotive manufacturing, and our apprentices play a vital part in this innovation and improvement, driving the business forwards into the future.

What are the benefits?

- Training in a world-class, award winning environment
- Dedicated Toyota Academy with an ethos based on lean principles
- Additional training from Toyota Manufacturing UK over and above the requirements of the apprenticeship standard
- Outward bound week
- Environment and sustainability
- Engine Rebuild Project Week

About the scheme

When you join Toyota as an apprentice, your training will specifically reflect your strengths and interests as an Individual. You will have the opportunity to develop your career in a way that is right for you. One thing is certain, you will never stop growing at Toyota and you can look forward to great job security and professional prospects in a culture that is welcoming and innovative. Working in one of the world's most advanced car plants based at Burnaston, Derbyshire you will train to become a Production Team Member, where you will be part of a culture where continuous improvement, hard work and teamwork are key to success. It is the ideal start to a long lasting career with various development routes within one of the world's most respected and successful automotive companies.

What do Production Apprentices do?

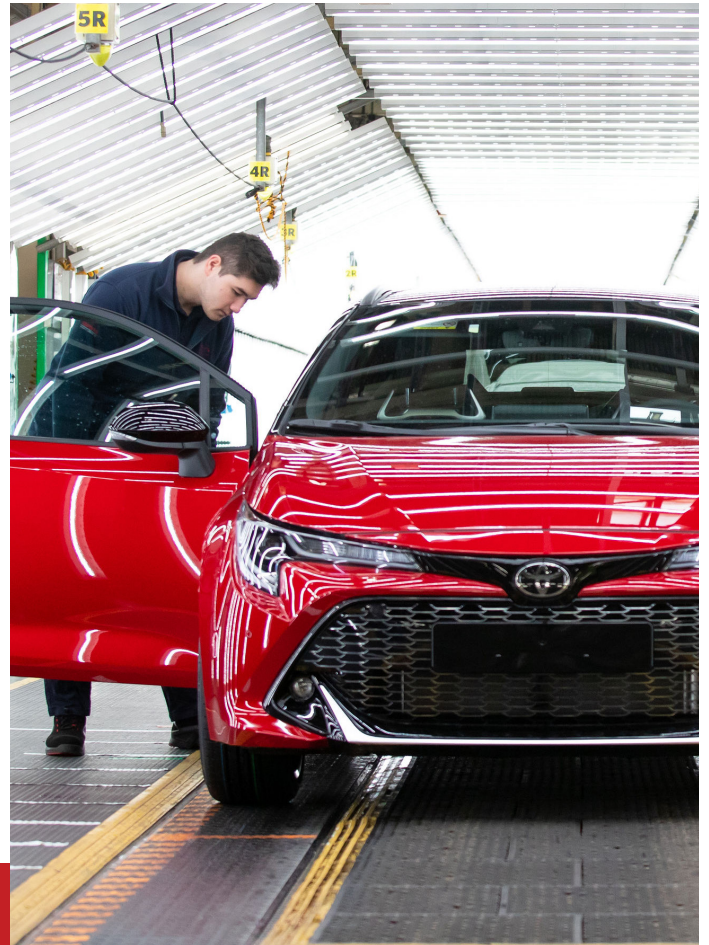

Production Team Members are the most important people in our factory. They build our cars to the highest standards every day. As an apprentice, our unique combination of on-the-job experiences and classroom training will give you the practical and people skills you need to succeed.

Subjects covered

On-the-job experiences and classroom training

- Health and Safety
- Communicating and Working Effectively
- Working Relationships, Individual Rights, and Responsibilities
- Application of Workplace Organisation
- Work-Related Problem Solving
- Preparing for Manufacturing Operations
- Concluding Manufacturing Operations
- Producing Products by Assembly Operations
- Engine Rebuild Project Week

Details about the Lean Manufacturing Apprenticeship Standard can be found at: www.instituteforapprenticeships.org/apprenticeship-standards/lean-manufacturing-operative

How will I receive my training?

For the first part of the apprenticeship, you will primarily be based at the Manufacturing Skills Development Centre on site at Toyota Manufacturing UK. Here, you'll learn about Toyota's culture, how we work and begin your personal development journey. You will then start your placements in our manufacturing areas to truly experience what it is like to build our cars. The programme is run as a collaboration between Toyota Manufacturing UK and Burton and South Derbyshire College. Tutors and trainers from Burton and South Derbyshire College are permanently based at the centre every working day of the year, alongside industry specialists from Toyota Manufacturing. They deliver teaching and training specified by Toyota that underpins the apprenticeship programme.

The 12 month programme follows the Lean Manufacturing Operative Apprenticeship Standard and this is the certification you will be awarded by the Institute of Apprenticeships & Technical Education on successful achievement of the programme and external End Point Assessment. You will also gain a Level 2 Diploma in Manufacturing (Knowledge & Skills) as part of the apprenticeship programme.

The Recruitment process

ONLINE APPLICATION

October to December of the year prior to start date (following September)

ASSESSMENT CENTRE January/February

FINAL INTERVIEW March

OFFER April – June

START DATE – Beginning of September

Our recruitment process begins in the October, a year in advance of the programme start date, so be sure to look out for our applications opening! Although it may seem daunting, our aim is to make the recruitment process as friendly and welcoming as possible. This is a two-way process which allows both yourself and Toyota to understand whether this is the right option for you to take moving forwards into your career.

Drive your career forward
