

## BTEC Level 3 Health and Social Care National Extended Certificate

This course is for students who are committed to reaching their full potential and are ready to take the next step; 6<sup>th</sup> Form. You will need to meet coursework deadlines and balance this with exam revision, over a two year period. As an introduction to the qualification, I am asking you to complete a piece of work, before your start in September.

**Task 1** – Outline the Physical, Intellectual, Emotional, Social (PIES) development for **two** life stages, choose from:

- Infancy
- Early Childhood
- Adolescence
- Early Adulthood
- Middle Adulthood
- Late Adulthood

**Task 2** – During the course you will cover many theorists and how they relate to PIES growth and development. Do some research into the following theorists, explain the theory and what areas of PIES the theory affects:

- Mary Ainsworth
- John Bowlby

**Task 3** – Do some research into nature vs nurture and how that can affect PIES development across the life stages.
